www.bluemooncamera.com (a nicely designed, fun site)

Film processed: 127 B & W, color print
620 B & W, color print

Special Note: #105 and #117 film is the same as 120 film, with the frame numbers in different locations. An antique 105 or 117 camera will take 120 film, but the numbers may not line up with the red windows, so you'll have to "guesstimate" when advancing the film.
